Crawl and Calm Resistance Tunnel

Uniquely designed to encourage crawling, pushing, pulling, heavy work and spatial exploration. Made of smooth fabric that's stretchy and resistant. Have a friend or adult hold one end of the tunnel while you crawl through to build strength, get proprioception on your joints and support sensory integration. Best of all, it encourages imaginative play!

- Promotes coordination, body awareness, motor planning and gross motor development.
- Encourages heavy work and joint proprioception through play.
