## iTalk4

The easiest way to provide an individual with four side-by-side communication choices is with the iTalk4 speech device. Activate the colored top to play the desired message. New messages are easily and quickly recorded to the iTalk4 on the fly, or use the levels pre-record up to three sets of messages ahead of time.

- Built ableSTRONG to endure drops and other environmental conditions.
- Made from ableSAFE materials and tested by third-party safety labs.

### Common Uses

- Provide a unique response to a question like "What is the weather like outside?".
- Respond to an assessment..
- Provide a way to make unique requests like "I need help", "I'm done", "I need to use the bathroom", and "I'm thirsty".
- Add communication to a switch controlled toy or appliance.

### Features

- Clear snap cover to attach picture symbols and provide communication context to the user.
